

automate-it is a successful Austrian start-up company helping customers to provide and manage IT Services on premise and in the CLOUD. Based on our continued success we want to grow the team and improve the positive experience of our customers have across the world. We developed our own Software and today we provide Cloud Services on top of our solutions and constantly improve the functions and capabilities of our products. Our customers are typically large enterprises who depend on agile and efficient IT-environments which we provision and manage for them. We have our main customer base in Europe, and the Middle East. Large Banks, Insurance Companies, Telecom organizations as well as public sector companies rely on our solutions and expertise. We want to grow the team in multiple positions and regions and actively seeking for smart, motivated and collaborative people, for the following position:

CLOUD SPECIALIST (m/f) in Dubai, full time job

JOB-ID: 1711-03

We are looking for a dynamic and target-oriented person who wants to work out of our new Dubai office for well-known clients in the Middle East region. A motivated team in the background, with highly qualified IT-professionals will await you with a challenging job, a lot of responsibility but also fun at work. You will be responsible for managing existing clients, lead projects on your own and support our local sales partners in technical demos and PoC's. As well you will gain new experience by meeting interesting people, live and work in one of the most exciting cities of the world and enhance your technical and personal skills.

Specific skills / Requirements

- ✓ 2-3 years of experience in IT-Operations or with server infrastructure
- ✓ Linux and Network skills
- ✓ Basic skills in developing OS-scripts or in programming languages
- ✓ Ideally skills with BMC Software Products (BMC Bladelogic Server Automation, BMC Bladelogic, Atrium Orchestrator or other automation solutions).
- ✓ Self-Motivation and a structured way of working
- ✓ Eager to learn new technologies and procedures
- ✓ Strong communication skills, both written and verbal

Responsibilities

- ✓ Support in current customer projects
- ✓ Managing and implementing projects at customer site
- ✓ Run technical demos and PoC's with the local sales partner

Benefits

- ✓ Advanced trainings and certifications
- ✓ Mobile phone and laptop are provided by automate-it.cc
- ✓ Salary will be paid adequate to your education and experience
- ✓ In addition for Dubai location a bonus is foreseen

If we awake your interest, please send us your CV and application-letter with a description of your experience and skills including proper job ID to recruiting@a-it.cc.
